PREFACE

This work entitles **“Student traveler: Let’s Explore the World”**. Traveling around the world could be more than exciting for the students because they can observe the diverse lives of people in various countries. This wonderful encounter inspired them to write down their unforgettable experience in this book. The memory they made while traveling through another country could become inspiration for other students, allowing them to experience what the authors did.

The students wrote chapters on their experiences to compile this book. Every chapter they wrote began with an explanation of how to get to the country they wished to visit.

Following that, students explain an object that they could see during their visit to the country. They described their experience being at that location and the moment they spend with the one they love. The writer's description allows the reader to sense the nuance of the location visited by the kids.

In Addition, they also express their feeling about people, the local, and the environment of those countries. They described how beautiful people they meet were. Reading this book is expected giving the reader an insight about the beauty of the world.

MY CRAZY EXPERIENCE IN FLORIDA

By Alroy Veda Alana Prasetyo

Florida, as one of the states in the United States of America, is a land of surprises. In early 2009, when I was about 3 years old, my mother and I flew to Tallahassee, Florida, to accompany my father doing college there. If you're looking for a place to have a good time, this is one of the best locations to go. There are many entertaining and interesting tourist attractions in Florida, each of which is unique and special in its own way. I will describe my experiences visiting Florida in this writing.

Orlando International Premium Outlets

How to get there

First and foremost, you must prepare your passport and visa for flying abroad; additional documents such as a driver's license or birth certificate are also required. After you've completed all your paperwork, book a hotel room in your preferred location. To reach there, you can purchase a plane ticket. There are two ways of

TURKEY – JOURNEY THROUGH THE LAND OF FOUR SEASONS

By Amiratudzakira Waranggani

Turkey, a large, rectangular, peninsula that connects southeastern Europe and Asia. With the hastiest preparations for the journey, I traveled there with my family in early 2020. If you're seeking a unique, new, and magical experience, then you'd definitely want to give Turkey a try. These are just a few insights from my experience in the Land of The Turks.

How to get there

Just like how you'd get to any other country outside the continent, the worth of it took some time. Thankfully, Indonesian nationals do not need a visa to visit Turkey. Just make sure you bring your passport and a few other essential identity documents. The easiest way to travel to Turkey from Indonesia is by air. International direct flights from Indonesia to Turkey generally leave from Jakarta. Istanbul's airports welcome flights from Indonesia. From the capital of Turkey, it is easy to get a flight or transport to other major cities including Ankara, Antalya, and Cappadocia. After 8 hours of flight, we transited in Doha airport. It took 6 hours before we could get into our connecting flights to Istanbul. Our second flight took around 5 hours. Finally arriving in Istanbul was an absolute delight. Unfortunately, Istanbul wasn't first in our list, so we took another 2 hours flight to reach our first destination, Cappadocia.

VISITING MALAYSIA – MY RECREATIONAL TRIP INTO THE LAND OF INDIGENOUS MALAY

By Arif Ksatria Adhikara Mandala

Malaysia is one of the more wonderful countries in the world, very rich with culture and history. Malaysia is a part of the ASEAN, short for The Association of Southeast Asian Nations. Along with my father and my brother, I traveled there in late 2018. Consider having vacation in Malaysia, as it is reasonably affordable, very easy to manage and very worth the time and money. Malaysia is one of the countries I've visited those sticks to me from the rest. Here are a few insights from my experience in Malaysia.

How to get there

Getting into Malaysia is quite easy, as all three of us had active passports, and visiting Malaysia from Indonesia doesn't require any types of Visas. We were only planning to stay in Malaysia for a short amount of time, around a week to be exact.

Malaysia is one of the countries that lets Indonesian tourists travel into their country without any visas, and they can stay up to 90 days (3 months), so you can use this to your advantage.

The flight I was in was a flight from Pekanbaru's Sultan Syarif Kasim II International Airport to Kuala Lumpur International Airport. The flight lasted for over 7 hours.

On arrival, the airport guards will thoroughly check you, starting from your luggage, your medical background, and you'll have to fill in some other documents, but that's about it. The process overall is really easy, I guess that's what you would expect from a travel process from countries that have good bilateral relationships.

EXPLORING ITALIAN HERITAGE

By Aulia Ahmad Harits Susetyo

It is the country that has cultural depth - the layers and layers of rich cultural history. I wouldn't say Italy is unique in this. Note that England, France, Germany, Greece, India, China, etc., also have great cultural histories, but there aren't many countries that can match Italy. First, of course, it has 600 years of Roman history. Then there is Dante, then the Renaissance (Michaelangelo, Leonardo, Botticelli, the architecture of Florence), then Caravaggio, and so on. In fact, there are individual Italian cities that have more cultural history than entire nations (Venice, Rome, Florence).

Roman Empire, political system established by Rome that lasted for nearly five centuries. Historians usually date the beginning of the Roman Empire from 27 BC when the Roman Senate gave Gaius Octavius the name Augustus and he became the undisputed emperor after years of bitter civil war. The empire lasted until Germanic invasions, economic decline, and internal unrest in the 4th and 5th centuries AD ended Rome's ability to dominate such a huge territory. The Romans and their empire gave cultural and political shape to the subsequent history of not only Italy, but also to Europe from the Middle Ages and the Renaissance to the present day.

Here are just a few insights from my experience in Italy, the country where the Roman Empire once ruled the world. I travelled there with my family at the end of 2016.

How to get there

Italy was one of the European countries we visited. Schengen visas must be arranged in the first country we arrive in from Jakarta. In this case, we landed in Paris, France.

We were looking for cheap flights from Indonesia to Italy. From Jakarta, I took a Lion Air flight to Kuala Lumpur. Then, from

TRAVELING AROUND UNI EMIRATE ARAB – MY JOURNEY INTO THE MOST LUXURIOUS RESORTS IN THE WORLD, DUBAI AND ABU DHABI

By Auriga Alan N.H

Who doesn't know one of the most luxurious places ever, everyone it is Dubai and Abu Dhabi. After planning a second trip to Mecca, I was excited to go. This is my family's first time vacationing there at the end of 2019. Initially, our family intended to visit Turkey or go directly to Saudi Arabia. After considering several destinations, we decided on Dubai and Abu Dhabi. We found these locations to be unusual. With a unique trip and holiday experience, here is a little story about how I spent my holidays in Dubai and Abu Dhabi.

How can I reach there

Many people think that if you go on vacation to Dubai, Abu Dhabi and other cities in the UAE it will reach deep inside your pocket. Indeed, if you go there on vacation, it costs quite a bit of money. Although using a travel agent can sometimes save money, it's always best to do your research yourself to get the best deal. The travel agency we chose was very responsible, so we didn't have to think about our passports, visas and other accommodations.

Because there was no need to worry about the visa issues when my family and I arrived at Abu Dhabi International Airport, and only needed a passport stamp and security check, we took the

UNWIND YOURSELF IN SWITZERLAND – EUROPE’S ELYSIAN FIELDS

By Bizarropharsa Azayaka Nabil

Located in the heart of Europe, atop the alps. Sandwiched in between three historical political, economical and military powerhouses, Switzerland is a wonderful nation. I traveled to Switzerland with my direct family in 2018 both for vacation and business. If you’re seeking an exciting, refreshing escape, Switzerland is the perfect destination. Here are some unforgettable experiences in the great mountain nation of Switzerland.

How to get there

Traveling to Switzerland is relatively easy, this is because Switzerland has been a major center for tourism since the advent of modern forms of travel such as airplane and ship.

It is best to travel to Switzerland with an experienced travel agency because there are many “hidden gems” in Switzerland. However, my family and I decided to travel by ourselves without the help of a tour guide agency. By traveling without the help of a tour agency, my family could travel more freely and have a more relaxed holiday, without having to face travel schedules or restrictions that would otherwise be arranged by the travel agency.

You would then have to create a visa to travel to Switzerland which entails filling out a form, taking a picture and a list of other requirements. To create the visa you would have to pay around Rp, 1.600.00 in total for the actual visa and extra fees.

To travel to Switzerland you would have to take a two hour flight from Jakarta CGK to Singapore. Then take a roughly 17 hour flight to any major European airport. When I traveled to Switzerland, my flight transited in Berlin. Then from Berlin you

SUDDEN TRIP TO SINGAPORE – FANTASTIC FIRST EXPERIENCE ABROAD

By Carryn Migrasia Helena Ticoalu

Singapore is both a sovereign and a city-state. It's the most well-known country in the world. There have been numerous tourists that have come to see it. A country located on the same continent as Indonesia, namely the Asian continent. The country is 728.6 km² in size. Singapore lies around one degree latitude north of the equator (137 kilometers or 85 miles). The language used in this country is Singlish. Singlish is an interesting combination of English, Hokkien, Malay, Cantonese and Tamil.

How to get there

Before I tell you about my trip in Singapore, let me tell you about how I got there. Starting with my parents' jobs, particularly my father's, who frequently travels out of town and abroad, he had an assignment project in Singapore exactly two weeks before our vacation. He provided several images and videos of how things were in Singapore during his few days there. Our family spotted it and decided to go there for a vacation. My father unexpectedly consented for us to fly to Singapore, even if it was just for a short time.

In contrast to other countries, all you need to visit Singapore is a passport. Why not apply for a visa? Because Singapore is a visa-free country for ASEAN countries, my family and I, for example, do not need to apply for a visa.

After preparing all the necessary documents, it's time to book tickets, to prepare for departure. You can choose tickets on several websites on the internet such as traveloka, tiket.com, mister aladin and others. You can also go to a place that usually sells plane tickets.

THE FUTURISTIC CITY DUBAI – MY JOURNEY INTO THE CITY OF SKYSCRAPERS

By M.Diandra Adhi Makayasa

Dubai is the most populous city in the United Arab Emirates and is the capital of the Emirate of Dubai. Located along the southeast coast of the Arabian Peninsula and south of the Persian gulf, the Municipality of Dubai is called Dubai City to distinguish it from the Emirate of Dubai. Dubai is one of the most popular tourism destinations in the world. The city has the second most five-star hotel in the world as well as the world's tallest building, the Burj Khalifa.

How to get there

The easiest way to travel from Indonesia to Dubai is with Emirates Airline, which flies direct there with a journey time of 7 hours. Dubai time is 3 hours before Jakarta time (WIB). If we are on the way to Europe, we can stop over at Dubai and Emirates Airline which will take care of our Visa. If you want to stay in Dubai longer, just apply for a Visa at VHS (Visa Handling Services), it's really easy. I went in August which means it's still summer. Well, summer there is around 40-47 degrees Celsius. Yoi, it's hot. But the fun thing is that summer in Dubai is all cheaper, because it is included in the low season, and we can always look for a vacation spot inside. Their AC is so cold! But if you want to go during winter, namely October-May, the weather is really nice. It's around 16-25 degrees Celsius. Don't worry, Dubai is one of the Islamic countries which I think is very modern. So we can see a lot of tourists in bikinis on the beach or in the pool and wearing shorts or sleeveless tops to the mall. So just relax, you don't need to wear a robe during the holidays

MESMERIZED BY THE BEAUTY OF ENGLAND

By Victoria Hermione Isir

Welcome to England – A place where geniuses come. Have you ever heard of William Shakespeare, the famous playwright who wrote Romeo and Juliet? Isaac Newton, who discovered the three Newton’s laws? Charles Darwin, a biologist who contributed to inventing the human evolution theory. It’s a home as well, to some well-known delicacies, including fish & chips, shepherd’s pie, steak & kidney pie, and others. Moreover, it is a country where the first Industrial Revolution happened and changed civilization. Now, make yourself feel comfortable for I will tell you about my experience visiting Queen Elizabeth II’s home.

How to get there

Based on my experience, I was a student in an English language course. The course held a homestay program where we will stay abroad for approximately 2 weeks. I enrolled myself in the program and attended the technical meeting. The staff gave a brief presentation about the program so that we could get a concept of it. Following the technical meeting, the staff informed us about the documents that were required. By the time I got home, I prepared all my documents and sent them to the language course’s staff. They emailed me some files that need to be filled by my parents and me. After that, my mother and I went to the immigration office for my visa and passport. Finally, we’re done with the administration.

Since I was registered in the summer program, I went to England in June 2019. On the day of departure, Ms. Jaclyn, one of the leaders, told us to gather in the 3rd terminal of Soekarno Hatta

International Airport. We gathered in front of the check-in section and were given a quick briefing. Then we checked in our baggage and once we were done, we went to the boarding gate. Our flight was scheduled at 11 PM and it would stop by Abu Dhabi for
